

Overcounter beer cooler PYGMY 25/K EXCLUSIVE

NEW DESIGN

The **PYGMY 25/K EXCLUSIVE** cooler with an inbuilt air compressor is designed for professional cooling and dispensing of excellent chilled beer for domestic use and smaller garden parties.

Coolers from the **EXCLUSIVE** series are the showcase of **unprecedented elegance**. The handle suitable for the transportation is retractable, all control elements are hidden at the back of the cooler, the sides are smooth without any ventilation grids and a **new handle** fits perfectly into the modern concept. Luxurious appearance highlights the **illuminated front panel**.

The performance of **20-25 l/h** and its small dimensions 180x300x345 mm put this cooler at the top among domestic over counter portable coolers.

PYGMY 25/K EXCLUSIVE has a continuous cooling performance of 20-25 l/h.

The modern compressor cooling unit uses the power input for direct transfer to chilling, which guarantees minimum energy usage and excellent chilled beer.

The thermo block with its high energy capacity is ready to dispense perfectly chilled beer within **2-4 minutes** after the cooler has been switched on. If the thermostat is set up to the max., the thermo block can accumulate a large amount of energy that is used for the dispensing of excellent chilled beers in a row.

The time required for the energy accumulation is about 10 min.

LINDR cooling technology is **45% more efficient** than its power input. All external construction is made from **stainless steel** to give a more clean and aesthetic look.

The materials used meet the highest requirements for hygiene standards and **guarantee a long working life of this cooler**.

Pygmy coolers have been recognised by experts as the beer coolers up to 25l/h with the best ratio of **price/performance/quality/dimension**.
